PROFILE

Junior Laravel/PHP developer with internship experience delivering RESTful APIs, optimized MySQL schemas/queries, and responsive UIs (HTML, CSS, JavaScript, jQuery, Bootstrap, AJAX). At Jam Academy, shipped advanced features and integrations that improved UX and application stability. Strong in MVC architecture, Eloquent ORM, and Github; write clean, maintainable, testable code and ramp up quickly.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University

2024

Bachelor of Technology - BTech, Lucknow

Computer Science and Engineering

PROFESSIONAL EXPERIENCE

Laravel Developer Internship, Jam Academy

Jul 2025 — Present

Lucknow, On-site

Learning and Contributing to web development tasks by integrating Laravel APIs with MySQL databases. Enhanced application functionality through AJAX, improving user experience. Developed skills in key web technologies including PHP, jQuery, and Bootstrap.

INTERSHIPS

Full Stack Web Developer Internship, Prutor@IITK

Jul 2022 — Aug 2022

Created a E-Commerce basic application, with html, css, js, bootstrap, php, mysql.

PROJECTS

Online Exam Management System

[GitHub](#)

- The **Online Exam Management System** is a robust web-based platform designed to simplify the assessment process for educational institutions and organizations. Built with **Laravel**, this application provides a secure environment for creating, managing, and conducting online examinations.

Responsibilities:

- Develop a Laravel-based online exam portal** with role-based authentication, exam creation, MCQ management, automated evaluation, and result generation.
- Implemented admin and student workflows** including dashboards, timed exams, secure submissions, and performance tracking using Laravel MVC and MySQL.

Laravel Starter Kit

[GitHub](#)

- Built a Laravel starter kit package** with pre-configured user registration/login, Bootstrap 5.3 UI, jQuery, icons, and alerts to accelerate app setup for beginners which is available on [packagist](#).
