SUMMARY

MCA graduate and certified Java Full Stack Developer with academic knowledge of Core Java, JSP, Servlets, JDBC, and MySQL. Open to Java backend and full-stack development roles with a strong interest in building real-world applications.

EDUCATION

Master of Computer Applications , Oriental Institute Of Science And Technology, Bhopal CGPA: 8.30	2025
Bachelor of Science, Mathematics , Ewing Christian College, Prayagraj CGPA: 6.53	2023
Higher secondary , Saraswati Shishu Mandir Higher Secondary, Mangawan, Rewa Percentage: 68.20	2020
Secondary school , Saraswati Shishu Mandir Higher Secondary, Mangawan, Rewa Percentage: 86.80	2018

PERSONAL PROJECTS

GadgetHub Web Application,

An e-commerce platform for browsing and purchasing electronic gadgets. "providing features such as product browsing.

- Tools & technologies used: For both Frontend and Backend: Java, JavaScript, HTML, CSS, JSP, JDBC, and Servlet along with the Bootstrap Framework to build a user-friendly application.
- Platform for buying and selling electronic gadgets, offering a seamless shopping experience for products smartphones, laptops, tablets, and accessories. The web application is built using Java for the backend, integrated with front-end technologies to create a responsive and dynamic user interface.

Banking Management Application, Created a Java Project entitled 'Bank Management System ATM Simulator..

- Technologies Used: Core Java (Swing AWT) Database Used: MySQL IDE used: Net beans
- It functions similarly to a real ATM. This ATM Simulator System has functionalities like opening a bank account, deposit, withdrawal, mini statement, PIN change, etc.

Employee Attendance Tracking System, Developed a web-based system for employees to log attendance and apply leave, with admin controls for approval and reporting. Built using Java, JDBC, MySQL, JSP, and Bootstrap.

- Tracks employee attendance, manages leave requests, provides admin controls for approvals.
- The project streamlines employee attendance and leave management through an efficient, user-friendly web application

TECHNICAL SKILLS

• Java	• JEE	• JDBC
• Multi Threading	• OOPS	• Collections
• SQL	• HTML-5	• CSS
• JavaScript	• Python	• C

ACHIEVEMENTS

Leet Code

Completed 250+ problems in Java on LeetCode.

Geeks for Geeks

Completed 150 Plus Problem Solving in Java.

CERTIFICATIONS

- Certified in C Programming Workshop from Yaswant Kanetkar.
- Certified in Java Full Stack Development from Sharma Computer Academy.
- Certified in SQL – HackerRank.
