

SIDDHARTH

Mobile Application Developer

Email: siddh2807@gmail.com

Phone: +91-88689-88633

Professional Summary

Results-driven Mobile Application Developer with 5+ years of experience in Android (Java, Kotlin) and 1+ year in Flutter (Dart). Specializing in scalable, high-performance applications, including IoT and real-time systems, with strong expertise in REST API integration, clean architecture, and user-centric design.

Technical Expertise / Skills

Programming Languages	Java, Kotlin, Dart
Mobile Development	Android, Flutter, Android SDK, Material Design
Frameworks & Libraries	Retrofit, Volley, Glide, Picasso, Gson
Architecture	MVVM, MVC, Clean Architecture
API & Data Handling	REST APIs, API Integration, JSON, XML
Database	SQLite, Room, Shared Preferences
Tools / IDEs	Android Studio, Postman, Gradle, Firebase
Version Control	Git, GitHub

Professional Experience

Company Name	Position	Location	Duration
SALGEM Infoigy Tech Pvt Ltd (Genic Minds Pvt. Ltd.)	Mobile App Developer	Noida, Uttar Pradesh, India	Jun 2024 – Present
Infoneo Technologies Pvt Ltd			Dec 2022 - Jan 2024
Davitek Solutions			Jun 2022 - Nov 2022
ISHA Technology Solution Pvt Ltd			Mar 2021 - May 2022
Digital Navigation Pvt Ltd			Dec 2019 - Feb 2021
iWebServices	Android Trainee		Mar 2019 - Oct 2019

Projects Experience

#1 Smart Locker System (Flutter): Developed an IoT-based smart locker mobile application integrated with facial recognition authentication and a payment gateway, implementing REST APIs, device communication, and real-time locker access control to enable secure and seamless locker management.

Project URL: <https://drive.google.com/file/d/1vMozlbY9YQ3Tk06ak4jLX7Dh33gAnh4I/view?usp=sharing>

#2 Pet Tracker (Flutter): Developed a GPS-based smart pet tracking mobile application integrated with a wearable device to enable real-time monitoring of pets' location, activity, and movement, featuring route navigation, geofence alerts for safe zones, historical movement playback, and weekly activity insights such as distance, duration, and calories burned to help owners effectively manage their pets safety and well-being.

Project URL: https://drive.google.com/file/d/1m-sKApv94tz47WrOkbvdjB7TaT_bx47X/view?usp=sharing

#3 Smart Neckband: Developed an IoT-based mobile application for real-time animal health monitoring, enabling livestock owners, pet owners, and wildlife caretakers to track vital metrics such as body temperature, heart rate, and SpO₂ through a connected wearable device, with an intuitive dashboard providing real-time updates and health insights to support timely and informed animal care.

Project URL: <https://play.google.com/store/apps/details?id=com.infoigy.smartneckband.in>

#4 Sugam REC (Android): Developed a mobile application for managing 54EC bond investments, enabling users to track bond interest status, purchase bonds through an in-app web view, generate and download digital certificates, submit queries for support, and securely access investment details using PAN-based authentication.

Project URL: <https://play.google.com/store/apps/details?id=com.rec.org>

#5 Ayurvedya (Android): Developed a Learning Management System (LMS) mobile application for delivering Ayurveda education, featuring bilingual support (Hindi and English), free and paid courses, modular learning with quizzes, live sessions, community forums for interaction, offline access to course materials, course reviews, and e-certificate generation upon successful course completion.

Project URL: <https://play.google.com/store/apps/details?id=com.ayurvedya.aiia>

#6 IOCL BR ONE (Android): Developed an enterprise mobile application for IOCL Barauni Refinery to streamline internal operations, enabling users to raise complaints, submit vehicle requisitions, manage outstation leave requests, and participate in surveys or quizzes, while supporting role-based admin access for efficient request handling, approvals, and operational management.

Project URL: <https://play.google.com/store/apps/details?id=com.iocl.customer>

#7 Rojgar Dunia (Android): Developed a job portal mobile application that connects job seekers, employers, and training institutes, enabling users to browse job listings with advanced search filters, receive job alerts, track applications, and communicate with employers, while allowing organizations to post job openings and efficiently engage with qualified candidates.

Project URL: <https://play.google.com/store/apps/details?id=com.graminshiksha.rojgardunia>

#8 Seeking Platform (Android): Contributed to the development of a luxury dating mobile application that enables secure user profiles, intelligent matchmaking, and real-time communication, providing a safe platform for successful and like-minded singles to connect, build meaningful relationships, and explore compatible interests.

Project URL: <https://play.google.com/store/apps/details?id=com.seekingplatforms>

#9 Pay Bucket (Android): Developed a mobile application for digital recharge and subscription management, enabling users to perform mobile, DTH, postpaid, and data card recharges while supporting subscription-based services to help businesses convert one-time users into loyal customers through seamless payment and recharge management.

Project URL: <https://play.google.com/store/apps/details?id=com.paybucket>

#10 Nirbhay (Android): Developed a mobile news application delivering real-time updates on local, national, and international news, covering categories such as sports, entertainment, business, leisure, and current affairs, ensuring reliable and comprehensive news access for readers.

Project URL: <https://play.google.com/store/apps/details?id=com.nirbhay.news>

Projects - Industrial Training

Real Estate Web Portal: Worked as a Database Designer and Coding Designer to develop a web-based real estate portal using Java, JDBC, Java2EE, Struts, and MySQL that allows customers to view property details and purchase properties while enabling dealers to efficiently manage property listings and customer information. Responsible for designing Tiles-based templates, creating database tables and stored procedures, developing candidate (job seeker) modules, and integrating all modules to ensure smooth and seamless application functionality.

Academic Projects

Key Point	MCA – Minor Project	BCA – Major Project
Project Title	Brick Breaker Game	Hospital Management System
Team Size	4	1
Duration	5 Months	3 Months
Technologies	Core Java, MySQL	HTML, CSS, MS Excel
Description	Developed a single-player multi-level game where the player controls a paddle to prevent the ball from falling and break bricks across levels.	Developed a system to manage hospital operations including patient records, clinic management, and pathology test results.

Professional Qualification

Degree	College / institute	University	Percentage	Year of passing
MCA	AKGEC Ghaziabad	AKTU Lucknow	70.37%	2018
BCA	Monad University Kastla, Kasmabad, Pilkhuwa		77.06%	2015

Academic Education

- **10+2:** UP Board, TSS Inter College, Hapur, 2012.
- **10th:** UP Board, TSS Inter College, Hapur, 2010.

Extra-Curricular Activities

Training Attended & Certifications:

- Certified in **Six-Month Java Training** – Agile Softech Pvt. Ltd., Ghaziabad (2018)
- Certified in **Java Training** – Brainsoft Software Pvt. Ltd., Ghaziabad (2014)

Academic Attendance & Recognitions:

- Merit Certificate for **Good Attendance**, MCA (III Year) – V Semester (2017–2018)
- Merit Certificate for **Good Attendance**, MCA (I Year) – II Semester (2015–2016)

Workshops & Achievements:

- Workshop on **Big Data – Hadoop** (2017)
- Workshop at **National Conference on Science & Technology** (2013)
